Echinocereus engelmanni (Hedge hog cactus).....	Ea.	.25
Echinocereus erhenbergi (White spines, purple flowers).....	Ea.	.20
Echinocereus Knippelianus (No spines, Elephants skin).....	Ea.	.50
Echinopsis calochlora (Yellow green body, white flowers).....	Ea.	.50
Echinopsis 'eyresi (short spines, white flowers).....	Ea.	.25
Echinopsis multiplex (Easter lily cactus, pink flowers).....	Ea.	.25

Epiphyllums or Orchid Cacti

The truly flowering Cacti with the most beautiful blooms of the cacti family. Every home should have at least one or two of these wonderful house plants. We offer the following plants which are most suited for house culture, lath house or shaded patio. These plants thrive in a semi-shaded location, and are offered either in rooted cuttings or blooming sized plants. Their blooming season run from March to July. 6" rooted cuttings will bloom in 1 to 2 years.

(RC stands for Rooted Cuttings)

Ackermanni—Earliest and best known. Light red flowers. Specimen plants \$3.75—Medium \$2.50—RC 30c.

A. D. Houghton—Has large scarlet flowers, petal bordered with violet. A Beauty. Specimen \$4.75—Medium \$2.75—RC 40c.

Agatha—Reliable bloomer. Pink flowers with crimson center. Specimen plant \$3.75—Medium \$2.25—RC 40c.

Amber Queen—Has 6 to 8" Flaming red flowers, outer petals red, inner petals orange edged with violet. A truly beautiful plant. Specimen plant \$4.75—Medium \$3.00—RC 50c

Autumn—Red orange tinged blooms. Often blooms in the autumn, but most generally in the Spring. Specimen plant \$3.75.—Medium \$2.50 RC 40c

Cooperi—vigorous, erect grower. Flowers large white petals with outer petals pointed and lemon yellow edged, another beauty. Specimen \$4.75—Medium—\$2.50—RC 50c.

Conway's giant—Another vigorous grower with unusually large deep red, purple blooms. Truly a great showy plant. Specimen plant \$3.75—Medium \$2.25—RC 50c

Desert Sunrise—probably the most popular variety of these plants. Flowers of water-lily type in medium size petals of orange red, edged with violet, very striking variety. Also a very fast seller. Be sure to order this one. Specimen plant \$6.00—Medium \$4.00—RC \$1.00.

Eden—Outer petals are bronze, then yellow and inside white. Specimen plants \$4.50—Medium. \$2.00—RC 40c

Fairyland—Flowers of magenta, with bluish cast and light salmon center stripe, center petals bear a white stripe near the base forming a star, in the center of the blossom. Specimen plant \$6.00—Med. \$3.50—RC \$1.25.

- Garnet—Compact well shaped plant. Flowers deep garnet red with purplish throat. Specimen plant \$3.75—Medium \$2.50—RC 40c.
- Gloria—An old reliable bloomer, sometimes have 9 to 10 inch flowers. Color varies from apricot to orange, one of the best. Specimen plant \$3.75—Medium \$2.00—RC 35c
- Mon-Cheri—A spectacular flower with red stripes on a yellow back-ground. Specimen plant \$5.00—Medium \$2.75—RC 60c
- Montezuma—Medium size cup and saucer type flowers. A wonderful combination of amber, orange, pink and violet towards the center. Specimen plant \$3.75—Medium \$2.00—RC 50c
- Padre—A bright green stemmed plant with dainty waxy shell-pink blossoms. Another great favorite. Be sure to include this on in your collection. Specimen plant \$3.75—Medium \$2.00—RC 40c
- Peacockii—An erect triangular growing plant with large flowers of Carmine red to luminous violet center. Specimen \$6.00—Medium \$3.75—RC \$1.00.
- Rosetta—Giant empress typr. Flowers 4 to 6" across. Deep rose or pink magenta. Specimen plant \$3.75—Medium \$1.75—RC 45c
- Scarlet Giant—Free flowering variety with wide orange and scarlet flowers. A most highly recommended plant for your collection. Another must have plant. Specimen plant \$3.75—Medium \$1.75—RC 35c
- The Lord—Blooms pale rose pink with deep rose center. one of the new and rare varieties. Stock is very scarce. Specimen \$10.00—Med. \$6.00—RC \$1.50.
- Vive Rouge—If you can use just one of these epiphyllum plants be sure and get this one. Has wide flat opening flowers, bright scarlet with violet throat. The floriferous one of all Epiphyllums. Specimen plant \$4.00—Medium \$2.00—RC 50c
- Viviana—Erect symmetrical plant. Large wide opening flowers of crimson red, the inner petals edged with violet tinges. These flowers are known to remain open from 5 to 6 days and increasing in size. Specimen plant \$5.00—Medium \$2.50—RC 75c
- Wanda—Flowers of medium size and of two tone salmon. Specimen plant \$4.75—Medium \$2.75—RC \$1.00.
- Wrayii—Large flowers with yellowish outer petal creamy white center. Specimen plant \$4.00—Medium \$2.50—RC \$1.00.

Special Epiphyllum Collections

Four specimen plants in bud in season of our selection. Different colors and guaranteed to flower, for only \$10.00. And one medium sized plant free of your selection. Be sure to order early for Spring delivery between March and July first.

Ten fine medium plants of our selection for \$12.50.

Twelve selected rooted cuttings of our selection, covering a good wide range of color, only \$5.00

Epiphyllum culture.

These interesting plants are shade loving plants from the tropical forests and require different treatment than the desert types. The soil mixture being as follows: Equal parts of leaf mold or peat moss, good top soil, course decomposed granite or gravel and about 1-5 well rotted manure. If this is not available occasional applications of plant foods or liquid fertilizer, as you would use for other flowering plants. To be used only when plants are making new growth, or when flower buds are forming. The use of liquid fertilizer on epiphyllums when flower buds begin to form at 10 day intervals, will greatly increase the size and number of flowers and greatly adds brilliancy of color. The plants should be grown beneath the shade of

a tree, in the lath house or in the house by a window where they will get a certain amount of sunshine every day. These should not be placed in the full sunlight like desert cacti.

Ferocactus acanthodes (Calif. barrel cactus).....	Ea. \$.35
Ferocactus alamosanus (Sonora Mex. rare).....	Ea.	.20
Ferocactus pringlei (Mex. red spines).....	Ea.	.15
Ferocactus viridescens (Nigger toe cactus).....	Ea.	.15
Ferocactus wislizeni (candy cactus).....	Ea.	.15
Gymnocalcyium mihanovichl (from Paraguay).....	Ea.	.30
Gymnocalcyium saglione (rare)	Ea.	.50
Hamatocactus setispinus (strawberry cactus.....	Ea.	.15
Harrisia martinii (from Argentina).....	Ea.	.10
Harrisia bon plandii (four sided plant from Paraguay).....	Ea.	.15
Lemaireocereus beneckeii (silver tip cactus).....	Ea.	.50
Lemaireocereus priunosus	Ea.	.20
Lemaireocereus weberi	Ea.	.20
Lemaireocereus montanus	Ea.	.15
Lemaireocereus dumertieri	Ea.	.25
Lobivia famatimensis (from So. America).....	Small 50c; Large	1.00
Lobivia binghamiana	Ea.	.35
Lophocereus schotti (from Ariz. and Mex.).....	Ea.	.15
Lophophora wiliamsi (mescal button).....	Ea.	.15
Mamillopsis senilis (Mex. rare. white spines).....	Ea.	.75
Monvillea diffusa (So. America. used in animal pots a lot).....	Ea.	.15
Myrtillocactus geometrizans (from Mex.).....	Ea.	.15
Mamillaria bocosana (woolly cactus from Mex.).....	Ea.	.15
Mamillaria calacantha (yellow and brown deflexed spines).....	Ea.	.15
Mamillaria camptotrica (bird's nest cactus).....	Ea.	.15
Mamillaria dioica (dark, fishhook plants from Calif.).....	Ea.	.25
Mamillaria durispina (very neat plant, yellow spines).....	Ea.	.15
Mamillaria elongata (golden lace cactus).....	Ea.	.15
Mamillaria hahniana (old lady of Mex. rare).....	Ea.	.50
Mamillaria karwinskiana	Ea.	.15
Mamillaria plumosa (powder puff cactus, no spines, rare).....	Ea.	1.00
Mamillaria bombycina (rare plant from Bombay India).....	Ea.	1.00
Notocactus leninghausi (gold spine, another rare one).....	Ea.	1.00
Notocactus scopa	Ea.	.30
Notocactus submammulosus	Ea.	.25
Nyctocereus serpentinus (nite bloomer, white flowers).....	Ea.	.10
Opuntia basilaris (Beaver tail).....	Ea.	.15
Opuntia erinacea (Grizzly Bear).....	Ea.	.35
Opuntia glomerata paper spines, very odd).....	Ea.	.50
Opuntia mamillata (boxing glove).....	Ea.	.15
Opuntia Mamillata crested	Ea.	.25
Opuntia monacantha variegata (Joheph's coat).....	Ea.	.15
Opuntia rufida (reddish turfs of glochids).....	Ea.	.10
Opuntia microdasy (Rabbit ears).....	Ea.	.10
Opuntia schickendantzii (sword cactus).....	Ea.	.10
Opuntia serpentina (snake cactus).....	Ea.	.10
Opuntia vilis (small growing tree cactus).....	Ea.	.10
Oreocereus trollii (old man of the Mts.).....	Ea.	.35
Pachycereus Pringlei	Ea.	.10
Pachycereus pechin-aboriginum (Indian comb).....	Ea.	.15
Pachycereus marginatus (pipe organ cactus).....	Ea.	.25
Rebutia senilis (pigmy cactus, white spines, red flowers).....	Ea.	.35

Succulents

Aeonium cooperi (reddish green)	Ea.	.10
Aeonium cooperi haworthii (gray green color).....	Ea.	.10
Aeonium sedifolium (nice rock garden plant).....	Ea.	.25
Aeonium tournforetii (a low shrubby plant).....	Ea.	.15
Aloe arborescens (red hot poker, small plants).....	Ea.	.25
Aloe variegata (Partridge breast)	Ea.	.25
Aloe beguinnii (resembles a haworthia).....	Ea.	.50

Aloe brevifolia (star shape)	Ea.	.20
Aloe humilis (similar to above, only smaller growing).....	Ea.	.25
Aloe nobilis (shiny green)	Ea.	.25
Byrneasia weinbergii (ghost plant).....	Ea.	.10
Ceropegia woodii (nice for hanging baskets, heart shaped).....	Ea.	.25
Cheiridopsis candidissima (the V for victory plant, shaped like a V. Everyone will want one of these. Lots of sunshine and very little water)	Ea.	1.00
Crassula argentea (jade or rubber plant).....	Ea.	.20
Crassula desecta (fine for small pots).....	Ea.	.15
Crassula reseda (low compact plant, red leaves).....	Ea.	.15
Crassula falcata (scarlet paint brush).....	Ea.	.35
Crassula imperialis (the giant watch chain).....	Ea.	.15
Crassula lycopodioides (club moss plant).....	Ea.	.10
Crassula rupestris (rosary plant, good for hanging basket.....	Ea.	.15
Crassula terangona (minature pine tree).....	Ea.	.15
Crassula teres (flowers white and intensely fragrant, rare).....	Ea.	1.00
Cynotis somaliensis (pussy ears, good for baskets).....	Ea.	.15
Dyckia sulphurea (often called pineapple cactus).....	Ea.	.20
Echeveria—Here is a very fine selection of these ever popular hen and chickens group of plants. They are noted for their ease of growing and above all the many various colored foliage and shapes. Everyone will want a Echeveria collection.		
Echeveria amoena, (a very small plant of this type).....	Ea.	.10
Echeveria reinwardtii (one of the rarest and slow grower).....	Ea.	.30
Echeveria setosa (this one likes some shade, not full sun).....	Ea.	.50
Echeveria rosa grande (another red and green beauty, rare).....	Ea.	.50
Echeveria perbella (a new one).....	Ea.	.25
Echeveria nobilis (rare and a slow grower).....	Ea.	.25
Echeveria gilva (an old stand by).....	Ea.	.20
Echeveria elegans (very popular)	Ea.	
Echeveria pulvinata (small shrub like, red tipped leaves).....	Ea.	.50
Echeveria peacockii (very rare)	Ea.	.60
Echeveria multicaulis (grows tall, red and green leaves).....	Ea.	.25
Echeveria expatriata (another small grower).....	Ea.	.15
Echeveria haagei (has pointed leaves, very nice).....	Ea.	.25
Echeveria funkii (flat creamy leaves).....	Ea.	.15
Echeveria dernbergii (highly prized plant from Mex.).....	Ea.	.30
Echeveria globosa (pale bluish)	Ea.	.15
Echeveria leucotricha (scarce, a slow grower.....	Ea.	.40
Echeveria nivalis (gray blue with rosy tips).....	Ea.	.35
Echeveria segunda glauca (common hen and chickens).....	Ea.	.10
Echeveria turgida (rare, gray green rosette, red tipped).....	Ea.	.75
Echeveria elegans gilva cross (red edged leaves).....	Ea.	.25
Euphorbia sub mamillaris (corn cob cactus).....	Ea.	.15
Euphorbia heptagona (from Cape of Good Hope).....	Ea.	.30
Euphorbia hermentiana (West Africa totem poles).....	Ea.	.75
Euphorbia caput-medusae major (very interesting plant).....	Ea.	.50
Euphorbia caput-medusae minor (also makes a nice pot plant)...	Ea.	.50
Euphorbia spendens (Crown of thorns).....	Ea.	.30
Gasteria hybrids (called Ox tongue).....	Ea.	.25
Greenovia gracilis (the Irish rose).....	Ea.	.25
Haworthia margaritifera (often called the wart plant).....	Ea.	.25
Haworthia faciata (leaves with white bars).....	Ea.	.50
Haworthia glabrata (dark green no dots).....	Ea.	.30
Haworthia cuspidata (blunt pea green leaves).....	Ea.	.25
Hereroa standleyii (small elk horn plant).....	Ea.	.25
Hereroa nelii (large elk horn).....	Ea.	.40
Kalanchoe behaarensis (has velvet like leaves).....	Ea.	.30
Kalachoe fedstchenkoi (purple colored leaves).....	Ea.	.10
Kalanchoe somaliensis (notched leaves, orange colored in full sun	Ea.	.20
Kalanchoe marmorata (marked with brown spots, very good)..	Ea.	.25
Kalanchoe scarlet hybrid (new, very firey red leaves).....	Ea.	.35
Kalanchoe hybrid (Also new, cuped olive green leaves).....	Ea.	.35
Klienea pendula (inch worn plant).....	Ea.	.35

Klienea mandraliscae (an odd plant with blue leaves).....	Ea.	.15
Klienea repens (same as foregoing only small growing type)....	Ea.	.20
Pachyphytum compactum (small rosettes of dark green leaves....)	Ea.	.25
Pachyveria schiedeckeri (has pearl-gray leaves with bluish cast)		
20c crests	Ea.	.30
Plieospilos bolusii (living rock, rough leaves).....	Ea.	.50
Pileospilos nelii (has smooth ground leaves).....	Ea.	.50
Pileospilos simulans (similar to the above, has broader leaves, often called a chunk of liver).....	Ea.	.50
These three items always draw attention		
Portulacaria afra (Elephants bush)	Ea.	.10
Portulacaria afra variegata (leaves cream and pale green edged with red	Ea.	.30
Sedum adolphii (yellow leaves)	Ea.	.10
Sedum altissimum var. latifolium (gray green plant).....	Ea.	.10
Sedum confusum (has golden green leaves).....	Ea.	.10
Sedum multiceps (baby Joshua tree, very popular).....	Ea.	.25
Sedum treleasii (same appearance as adolphii only gray-green leaves)	Ea.	.10
Sedum stahlia (Boston baked bean plant).....	Ea.	.10
Sedum pachyphyllum (has grey green leaves with pink tip)....	Ea.	.10
Sedum guatemelense (Christmas cheer plant).....	Ea.	.10
Sedum morganianum (the Burro's tail).....	Ea.	.35
Stapelia hirsuta (hairy starfish flowers).....	Ea.	.25
Stapelia variegata (star-fish flowers, small).....	Ea.	.10
Stapelia verrucosa (dainty toothed stems).....	Ea.	.20
Stomatium fulleri (a night bloomer, yellow flower).....	Ea.	.25

In this list of plants we sincerely hope that you will find some of interest to you. And that you will derive as much pleasure in caring for them as we have had in growing them for you.

CALIFORNIA CACTI SOUVENIR

Real Live Plants and Cacti Wood Containers

Large sized container with 3 plants and correct soil mixture \$1.50, Container alone \$1.00.

Small container with 1 plant and soil \$1.00, Container alone 65¢.

The above items Postpaid to you. Also growing instructions included.

Yours very truly,

A. T. GLOVER
